

**e In Old Build-  
Held Sunday  
t. Oct. 27**

**Last Service In Old Building to Be Held Sunday Night, Oct. 27**

Pahokee Methodists will hold their final service in the present church building Sunday night, it

He announced yesterday by Rev. George A. Tolle, pastor of the church. The pastor said that the final service, before moving across the street to the beautiful new church,

will be known as "Old Timers Night," at which time it is hoped that a large crowd will be in attendance.

On Sunday, November 3rd, the

new edifice, recently completed, will be dedicated with fitting ceremonies. Rev. H. F. Tolle, pastor of the Lake Wales Methodist church and father of the Palmetto pastor, will preach the

pastor, will preach the dedicatory sermon on the morning of November 3 while Rev. Joe Holle will offer the sentence of dedication and prayer. Plans call for reassembly of a pioneer quar-

t which sang at the dedication  
the building being vacated by  
e, congregation. The quartet  
as composed of A. R. Rice, Dr.  
H. Lair, D. S. Spooner, all of

Shokee and F. E. Cecil of Palmetto, who will plan to be in attendance.

For the dedicatory service special music is being planned and a

duet will be played by Miss  
Gates and Miss Mary Love  
At the night service Dr. C.  
Vliet, presiding elder of the  
district, will be present and  
deliver the evening sermon.

Let is well known in the Lake region having preached here on different occasions in the past. In the Sunday school next Sunday rally and promotion day will

observed and officials of the Sunday school are urging that every member be in attendance since it will be the final meeting before going to the more modern-

equipped Sunday school rooms in the new building. In commenting on the wonderful progress made in erecting the new building Rev. Tolle expressed

...raction over the fact that the building was built on a pay-as-go plan and that its completion will find it out of debt. He emphasized highly the building committee composed of C. B. Mc-

committee composed of C. B. McCreary, chairman, Dr. W. H. Laird and L. L. Stuckey, through whose efforts the building has been brought to successful completion. The remarkably short length of

in which the new church was  
planned and completed is worthy of  
note. The first cash donation was  
made Jan. 13, 1934. Deeds for  
transfer of the land were record-

on Dec. 3, 1934, and the plot  
red off on Dec. 28, 1934. First  
ber for erection of the build-  
was hauled to the site on Jan.  
1935. Piling were driven on

first pilgrimage of the congregation to the new building was on March 10.

when completed the Pahokee congregation will have one of the most beautiful houses of worship to be found anywhere. The seating capacity of the auditorium is

while the balcony provides for additional 100. Nine Sunday school rooms will be equipped and Young Peoples social room will be arranged in an efficient manner.

pastor will have a study in new building. The building being vacated by the Pahoekoe Methodists and which will soon be razed was built

21. Lumber was brought in-  
ahokee on boats and it was  
nary to wait until the wind  
just right and take advan-  
of the waves to float the lum-  
to shore. Old timers re-  
late

erection of the building was  
ed on a Thursday morning  
services were held in the  
ing on Sunday night.

Evolving service, 7:30 p. m. Subject: "The High Cost of Courtship"

Young people meeting and chit-chatting Wednesday, 7:30 p. m.

There will be a debate at this meeting on the subject: "It is Better to Have Loved and Lost Than Never to Have Loved At All."

Junior League, Saturday, 2:00 p. m. Subject: "The High Cost of Courtship"

On Tuesday night at 7:30 there will be a play given by the Epworth League at the school auditorium for the benefit of the song book fund. There will be two plays entitled: "Wanted: A Wife" and "Getting Experience." Also a musical program. Admission, child, 10c; adults, 25c. Come and enjoy an evening of fun and music.

The League of Nations has imposed "sanctions" member nations, in other words, are asked to put trade and financial penalties on Italy, in the pious hope that Signor Mussolini can thereby be persuaded to see the light of reason.

Right now the propaganda notes the Geneva as their base.

The League of Nations has imposed "sanctions" member nations, in other words, are asked to put trade and financial penalties on Italy, in the pious hope that Signor Mussolini can thereby be persuaded to see the light of reason.

Through it all we hear a great deal of talk about "enforcing peace" and about the "challenge" which the war presents to the world's collective machinery for averting war.

This makes fine reading, but we should beware of taking it all too seriously. For it leads to a long lane which has no turning, and at the end of the lane there is another fight to make the world safe for democracy, or something in which American troops and warships would be greatly appreciated.

Italian imperialism has provoked a new war. That much is undeniable. What we can easily overlook is that the "challenge" comes principally from a rival imperialism whose toes are about to be stepped on.

Britain is the moving spirit in this action for sanctions; and Britain, you may remember, has the greatest African empire the world has ever seen. It got this empire in precisely the way that Mussolini is trying to get one—by walking in and hitting the original possessors of the soil on the head.

Africa is a large continent, but it does not contain room enough for two rival empires, both interested in the same territory. If Mussolini achieves the empire he wants, the British empire in Africa will be threatened. Hence Downing street is anxious, British warships are concentrated in the Mediterranean, and the British are trying to get one—by walking in and hitting the original possessors of the soil on the head.

If we let ourselves get swept off our feet by emotional talk about America's duty to the cause of peace, we may yet find ourselves sending troops across the sea to preserve the British empire. And while that empire may be well worth preserving, it is hardly our job to do it.—Palm Beach Post.

## TOO LATE TO CLASSIFY

By Russell Kaffy

And now comes Roy Child, editor of the Levy County Journal over in Bronson with the question which doesn't run for Governor. So right here, with your permission, I'd like to interrupt this column long enough to sing a little song for Roy entitled "I got a Feeling you're Foolin'!"

And here at this time I was figuring that Roy was my "buddy."

We've inhaled nourishment at the same table, gargled from the same jug, and even fished from the same boat, and after all that he comes out with a slam, prickly crown of thorns to accuse me of treating him with the statement that he has NOMINATED ME!

No, Roy—thanks for that kind word, but personally I don't think I rather die a natural death and keep my fifty thousand dollars than Mr. Buford was talking about.

I never could understand why any guy would work himself into a lather and risk ruin to his health for a nomination.

I'm in an effort to secure a temporary job that is not in much better shape than a glorious four-year headache.

Of course they tell me that there's money in it and maybe a certain amount of glory, but I don't have a lot of close-ups of "Governors at work" and I'm telling you, the chances are pretty good that the job far overbalances the other side of the picture.

And then an E-Governor is a kind of a pitiful thing to get, and while few of these aspirant candidates think about that when they're running, if they win they get a little bit of a kick out of it.

This Chief Executive racket seems to be getting under the fellow's hat and once he's had a whiff at it he's never content to let it go.

I've seen the time comes to check out and figures if he can't get in there again he "knows" what I know now, boy, he's out!

But getting back to Mr. Buford, for governor, well, the more I think about it, the bigger laugh I get. Just imagine me standing on a stump between a couple of old judges and Banker Fred Cone! That would be a couple of sublime and a ridiculous for you, and no doubt.

Bill would thunder out in senatorial tones about the "rights of the sovereign voters" and then I'd get up and call him a bunch of "naps." Fred would try to hypnotize me with a flight of hawk words, and then I'd get up and say "Folks, I don't know about you, but for my part, I think it's a lot of HOOKEY!"

And when some earnest voter stepped up and asked me point blank "what's your opinion" as to the taxpayers at Tallahassee?" I'd tell him that I probably wouldn't do a bit more for 'em than most governors have done, and they'd be calling me a "big and so" before I'd been there a week.

About the time Jerry Carter would come along with "dog of FIRE" literature about "Gos. fight" and "Res. Res. and so on" with all the votes, his line of reason being the most intelligent and logical of any the pond-pump voters had listened to.

But don't worry—I ain't gonna run. I wouldn't have a leg to stand on even a G. Baptist and he'd be kicking me out of the door to join. The newspaper boys all know me too well to be started up and when I start to talk about my "way" round I wouldn't be any time at all before I'd picked up as a TRANSIENT.

The only excuse I could possibly think of for wanting to be governor is that I've never been to Europe. But then a guy can't have everything, so I'll try and content myself by getting my "Vichy" out of a BOTTLE.

Paty Announces For Governor

B. F. Paty, former chairman of the state racing commission and West Palm Beach lawyer, yesterday announced his candidacy for governor on a platform of restoring the state government to the people.

In addition, Paty proposes to insist upon common honesty and sound business principles in all state departments.

It was the first announcement in the governor's race. Paty explaining that he saw no reason to delay throwing his hat in the ring for that may be filled with political romances before the primary next June.

Some form of income taxes now exist in twenty-nine of the forty-eight states. The highest rate, 3 percent of all sales being in Illinois, California, New Jersey and North Carolina.

## PAHOKEE'S BLUE DEVILS DEFEAT LAKE WORTH 58-0

Hobson Gives Entire Squad Opportunity To Show Prowess

## BELLE GLADE NEWS

Reuben Gordin has returned from Washington, D. C., where he accompanied Mrs. Gordin and two sons. The latter will remain in Washington for the winter months, where the boys will attend high school and college. Mr. Gordin expects to be in Belle Glade the greater part of the season.

Dr. and Mrs. Richard Townsend had as their guest during the week end, Miss Ruth Royal of Canal Point.

Dr. William J. Buck returned Friday from New York City, where he spent four weeks taking post-graduate work in the Columbia Medical school.

Miss LaVon Parker, of West Palm Beach, was a recent guest of her mother, Mrs. S. G. Parker, at her home here.

Mr. and Mrs. Claude Eckerson, of Tulsa, Okla., left Monday for Washington, D. C., after visiting Mr. and Mrs. Walter Greer here.

Mrs. Jack Keese and house guest, Miss Eleanor Keese, of Danville, Va., accompanied by Mrs. Robert Creach and Mrs. George

Woodward, spent Monday in West Palm Beach.

F. D. Stevens and Thomas Bregger of the Everglades Experiment station here are visiting the experiment stations at Gainesville, Quincy and Lake Alfred this week.

Mr. and Mrs. S. K. Smith, of Fort Pierce, spent Sunday with Mr. and Mrs. Robert Creach.

Word has been received here that Dr. H. E. Cline of Haines City will be in Belle Glade November 1, to reside and practice medicine.

He has leased an apartment and office space in the Douglas building.

Mrs. Ida Motes, of New Smyrna, accompanied by Miss Rose Motes of West Palm Beach, are visiting Mr. and Mrs. W. M. Motes at their home here.

Mr. and Mrs. E. P. McEwen, of Fort Lauderdale, have come here to reside.

Billy Rink, son of Mr. and Mrs. W. P. Rink, is convalescing at his home here after an appendicitis operation in a Lake Worth hospital.

## PHILLIPS PLAN FOR PRE-COOLING IS AGAIN IN USE

Introduced Last Year In Glades Area for First Time

Phillips Pre-Cooling Service, which last season introduced on a commercial scale the pre-cooling of vegetable shipments in refrigerator cars in this region, has again established headquarters in Belle Glade. Donna H. Phillips, who is handling the work in the Lake region, reports that the organization went into action early this week, having pre-cooled some of the season's first shipments of beans.

Since November, 1934, when N. S. Starling and Son shipped the first car of beans pre-cooled with the Phillips system in this section, the interest of Lake shippers in pre-cooling has greatly increased, according to Mr. Phillips, who anticipates a busy season.

To illustrate the growth which the Phillips pre-cooling system has had in other parts of the country, and by way of explaining the optimism with regard to its use in Florida, Mr. Phillips said that more than 50,000 cars of produce had been pre-cooled with licensed Phillips equipment in western states from the inception of the system in 1934 until 1935, and that approximately 10,000 cars were serviced with the equipment during July, August and September of this year.

Asked regarding the object and effect of pre-cooling, Mr. Phillips gave the following information:

"The object of pre-cooling is the quick removal of field heat from produce before it is shipped, and the effect is the sharp reduction in the rate of ripening, the growth of rot organisms and general deterioration in transit. In a few hours, pre-cooling in the car will reduce the temperature of the load to a degree that would not be equalled without pre-cooling in less than three or four days. The effect of starting the shipment off with a lower temperature than it would ordinarily have after several days in the car is better condition and appearance when received at the market. According to reports of market receivers, the effect of pre-cooling on beans is marked by improved color and greater freshness. Shippers report on the effect of pre-cooling on celery, peas and leaf vegetables that they are better received, and only a minimum amount of top-ice is needed to keep the commodities in good condition. Especially with regard to crispness and elimination of slime."

The price fool is the one who allows himself and his money to be parted by the same scheme twice.

AG. TEACHERS TO MEET IN FAHOREE SATURDAY

Agricultural instructors of Palm Beach and Dade county will assemble in Pahokee high school auditorium Saturday morning at nine o'clock for the annual district conference, according to announcement made yesterday by Prof. H. Speer, agricultural teacher in Glades schools.

J. F. Williams, state superintendent, will be present. Harry F. Wood, itinerant teacher trainer, and Dr. E. W. Garris, head of the local training department of the University of Florida, will also be present and each will deliver short messages to the teachers.

C. P. WOMAN'S CLUB MEETS ON MONDAY

The first meeting of the new year of the Canal Point Woman's club will be held Monday afternoon at 3:30 o'clock in the club building. All members are urged to be present as plans for the coming year's work will be perfected.

BELLE GLADE W. M. S. TO INSTALL OFFICERS

The installation of officers of the Belle Glade W. M. S. for the new year will take place at the First Baptist church on Sunday night, October 27, at 7:30. The public is cordially invited to attend.

CARD OF THANKS

We wish to express our appreciation to our many friends for the beautiful floral offerings and many expressions of sympathy in the recent loss of our mother, Mrs. Clara Jeffries.

Mr. and Mrs. W. M. Jeffries and family.

Mrs. J. B. Jeffries.

PAHOKEE

S. Fairbanks, who was a patient in a Miami hospital for several weeks has returned to his home here.

Miss Mary Love Tolle was a recent guest of her sister, Miss Martha Tolle, in Fort Lauderdale.

Mrs. W. H. Vann will leave this week for Gainesville to visit her son, Gordon, a student in the University of Florida. Gordon recently suffered a broken foot.

Dr. J. S. Brannan of West Palm Beach and formerly of Pahokee, visited friends here recently.

Mr. and Mrs. M. L. Lloyd and son, Sanford, have arrived in Canal Point, where they will spend the winter with Mr. Lloyd's daughter and family, Mr. and Mrs. Fred L. Tyner.

Mr. and Mrs. John Dixon have returned to their home in Marianna after being called to Pahokee at the death of Mr. Dixon's brother, T. G. Dixon.

Miss Sybil McCoy has returned from Okeechobee, where she spent a week visiting friends.

Miss Julia Wilder has returned from West Palm Beach, where she visited friends for a few days.

...but, after all is said and done, it's the cigarette itself that counts

...the question is, does it suit you?

Now, when it comes to a cigarette that will suit you . . . you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident . . .

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding . . . for mildness . . . for better taste

© 1935, LUGGATT & MYERS TOBACCO CO.

## FORT PIERCE PLAYS TONIGHT

Pahokee Blue Devils will go up against the strong Ft. Pierce aggregation tonight at 8:15 on Laif field in Pahokee. The visiting outfit is a powerful one and the local chaps will engage in one of the hardest battles of the season.

## SCHOOL REPAIRS DELAYED

(Continued from Page One)

Beach member of the board, who favors awarding the work by contract, contended that the action amounts to rejection of the federal offer, and application for a new grant, but Chairman J. C. Ingram, of Lake Worth, and A. Q. Howell, of Pahokee, who favor the account method, said the grant was being accepted, but a different plan of performing the construction is being submitted for approval.

Cornelius maintained that work is being delayed when it could be started within a few days, but the other board members voted to submit the proposed plan as decided by the same two-to-one split vote of the board last spring.

Although the board had decided in favor of this method months ago, it was assumed in Washington that the work was to be by contract. This information was obtained from James E. Cotton, acting director of PWA, in a telephone call by board members during the meeting yesterday.

The school board will place \$35,500 in a construction account to supplement the \$31,500 from the federal government, but the fund will not have to be set up until after the proposed work plan is submitted to Washington. Mr. Cotton said he could not say how much time will be required for consideration of the proposal.

The force account method proposed by the majority of the board provides that the board shall supervise the repair projects through William Manly King, as consulting architect. A general superintendent, preferably a general contractor, will be employed, with an assistant superintendent for each of eight groups into which the projects will be divided. All materials will be purchased by the board from dealers in the county, and all labor will be employed in the county.

## J. K. Baker Displays 1936 Pontiac Cars In Pahokee, Clewiston and Belle Glade

### Many Improvements Are Made in New Models, Local Dealer Says

J. K. Baker, Pontiac dealer in the Lake Okechobee region, is this week displaying the new 1936 model Pontiacs and is well pleased with the reception being accorded the new cars in the Glades area. Mr. Baker maintains general offices in Belle Glade and today is opening a display room in Pahokee and one in Clewiston.

The "silver streak" radiator and hood grille that formed the central design motif of 1935 continues as the basic theme with certain pleasing changes that reflect even greater refinement of taste and more artistic beauty than was expressed in the original.

Improvements included in the 1936 line are greater in number than they were for the 1935 models, and fully as important to the motorist. Many of them are not as apparent at a glance and probably none of them stand out as boldly as Fisher turret top bodies, hydraulic triple sealed brakes or the sealed chassis of 1935.

A close examination discloses that the Pontiac engineers have gone through the 1935 chassis and bodies, feature by feature, refining this one and perfecting that one, keeping in mind the comfort and convenience of the motorist, and the economy, performance and safety of the car.

The straight eight and de luxe six are available in six body types, while seven are mounted on the six chassis. Common to all lines are two-door and four-door touring sedans (with built-in trunk), all accommodating five passengers; the standard coupe for two passengers and the sport coupe for four passengers. The cabriolet, built for four passengers is available also on the six chassis. Many optional features are offered, with

a wide variety of trims and finishes recently developed by Duco color engineers.

Probably the most striking change in exterior appearance is the chrome grille has been radiator in an unbroken line, thus emphasizing speed and giving the impression of a longer, sleeker, faster and lower car, despite the unchanged wheelbase of 117 inches on the eight and 112 on the sixes. New radiator ornaments are in the modern motif. Chrome trimmed brackets support the headlamps on the radiator shell. Further improvement in exterior appearance includes a more deeply crowned, snow-pile front fender sweeping down to the bumper level and all-weather steel reinforced running boards. Rear fenders are more deeply crowned, with the rear half raked further back to a point below the wheel center. Headlamps are mounted on the fenders. Rear bumpers are longer. Bumper ornaments are refined and smaller. All sheet metal is fully rustproofed.

Little improvement could be asked for in the frame and structural strength of the Fisher turret top solid steel body. But there are a score or more of changes to the interior fittings, appointments and trim of all body models.

Artistic paneling on the doors and expensive new cloth trim further distinguish the body interiors. Cabriolets are trimmed with buffed, crushed grain tan Spanish leather or taupe worsted Bedford cord.

Seat cushions have been reshaped to conform more nearly to the human figure. They are longer and deeper and extend to the floor in both front and rear.

Many refinements in the power plants and chassis have been made to give improved performance, quicker acceleration, easier starting, higher speed, better economy

and greater convenience in handling. Pontiac features that have proved highly satisfactory, such as metered flow lubrication, cross flow cooling, silver-cadmium bearings, electro-plated pistons, rifled connecting rods, square bore and stroke, and ample engine margin for dependability and durability are retained.

Triple sealed hydraulic brakes are more positive than ever and have a still greater safety factor now with new and more expensive cast iron brake drums and moulded linings.

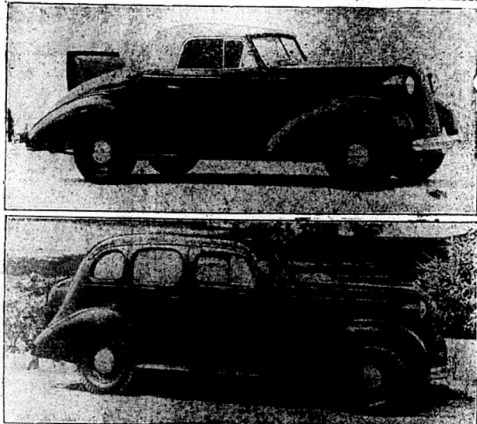

Automatic choke, automatic throttle opener, new intake manifold and new exhaust chamber are improvements in the six and de luxe systems. All models have a new clutch plate and new all-weather gear, synchro-mesh transmission.

Many national improvements and refinements embodied in the 1936 Pontiac lines have not been touched on. However, it is evident that none of the changes are radical, and none affect engineering fundamentals. But all are of importance to the car owner, and are part of the program of the manufacturer which has included an expenditure this year of \$3,500,000 in new buildings, machinery and equipment to provide for a 100 per cent increase in the manufacturing capacity of the Pontiac Motor company in 1936.

## 1936 PONTIACS ARE DISPLAYED BY BAKER, GLADES DEALER

Pictured above are, top, the 1936 Pontiac six cabriolet with rumble seat, and the 1936 Pontiac straight eight, four-door sedan. J. K. Baker, with sales offices in Belle Glade, Pahokee and Clewiston, is the Glades Pontiac dealer and this week is displaying new models throughout the Lake region.

## SOUTH BAY NEWS

The young people of the Community Church met Sunday afternoon to organize for the year's activities. Preliminary steps were taken to decide on the program for the year and plans for this program will be perfected at the meeting next Sunday.

Officers were elected for the coming year. Edith Aly was re-elected president and Edith McWitt was president. Jessie McGood was selected as secretary and June Goodbread elected treasurer and assistant secretary. Mrs. P. J. Goodbread was unanimously chosen as counselor.

Plans were also discussed for the entertainment of the All Everglades League which will be held on the next meeting date. This league was entertained in Canal Point last week. Members attending from here included Mrs. F. W. Mutchler, president of the league, Edith Aly, Edith McWitt, Louise Rawie, June Goodbread, Betty Rawie and Mabel Rawley. The younger set were pleasantly entertained at a Saturday night pre-Halloween dance at the W. H. Rawie home, the Misses Louie and Betty Rawie acting as hostesses for the occasion. Light refreshments were served during the evening.

The Community Church was the scene of a double shock shower in the week end in West Palm Beach as a house guest of her sister and family. Mrs. Dr. Van Landingham of West Palm Beach spent several days last week at the house guest of her son, Ernest Van Landingham, and wife. When Thompson spent the week end with relatives in West Palm Beach.

Mr. and Mrs. Strickland are returning to West Palm Beach where he has finished with the rock test drills for Road No. 28.

### PONTIAC

For 1936

NOW ON DISPLAY

*More beautiful than ever*

and **BUILT TO LAST**

**100,000 MILES!**

### ALL THAT'S BEST OF ALL THAT'S NEW

1. Solid Steel "Turret-Top" Bodies by Fisher
2. Improved triple-sealed hydraulic brakes with new chrome-nickel alloy drums
3. Enclosed Knee-Action on "F" and De Luxe "S"
4. Smoothest of "S" and "F" cylinder engines with all-weather bearings and full-pressure metered lubrication
5. Electroplated light-weight nickel-alloy pistons
6. All-steel Synchro-Mesh transmission
7. Simplified starting with automatic choke
8. Concealed luggage and spare tire compartment
9. New full-length water-jacketed cylinders
10. Even stronger double K-Y frame

YES, the new Pontiacs are actually even more beautiful than before, with a new front-end, new headlight mounting, a different hood, different running boards, and a decidedly different rear-end treatment. And that's only the outside story of the new Pontiacs. The inside story is even more remarkable. The 1936 Silver Streaks are built to last 100,000 miles.

The brakes are triple-sealed hydraulics with new warp-proofed drums of fused iron on steel and molded linings. The bodies are solid steel "Turret-Top" Fisher Bodies with No-Draft Ventilation, insulated roofs, and built-in luggage and spare tire compartments. Clutch, brakes, and engines are even smoother. While the Synchro-Mesh Transmission is silent in every speed. And the new more economical engines feature cooling and lubricating systems that are models for the entire industry!

These, of course, are merely the highlights of what awaits you at your Pontiac dealer. Be sure to get the rest of the story, including the startling facts about Pontiac's low prices.

PONTIAC MOTOR COMPANY, PONTIAC, MICHIGAN

List prices at Pontiac, Michigan, begin at \$615 for the Six and \$730 for the Eight (subject to change without notice). Standard group of accessories extra. Easy G.M.A.C. Time Payments.

THE GLADES' FINEST AND MOST MODERN SERVICE STATION

HANDLING A FULL AND COMPLETE LINE OF

### Woco Pep Motor Fuel - Toilene Motor Oil

### Woco Pep Super-Solvenized Motor Fuel

### SUPER - SOLVENIZED WOCO PEP MOTOR FUEL

Today and Tomorrow We Will Have An Expert Here To Demonstrate This Gas

With the regular use of Super Solvenized Woco-Pep Motor Fuel carbon problems will disappear and you will save money. This marvelous Motor Fuel increases compression—increases mileage and top speed.

Super Solvenized Woco-Pep Motor Fuel contains scientific fluids which is carbon's enemy, protected by U. S. Patents 1,988,441-51. It is available only in this section at Woco-Pep Service Stations—an exclusive feature.

Super Solvenized Woco-Pep—this marvelous extra value Motor Fuel costs only a penny more a gallon than regular Woco-Pep. Super Solvenized Woco-Pep is identified by its rich purple color, and regular Woco-Pep, as always, is identified by its golden red color.

It would take you long to see the amazing results of Super Solvenized Woco-Pep in your car which will safely and surely dissolve and remove the carbon binder and improve motor performance. Ask your Service Station Man about the special Woco-Pep Solvenizing treatment.

THE PLUS MOTOR FUEL —CARBON'S ENEMY!

### MOST MODERN EQUIPMENT FOR SERVICING AUTOMOBILES

Believing That Lake Motorists Are Entitled To The Best The Finest Equipment Is Installed

With a full-line of Pure Oil products and the very latest in modern equipment we are prepared to render a truly "One-Stop Service" to the motoring public. No expense has been spared in equipping this station in a manner which assures you of instant and efficient service.

A hydraulic grease lift has been installed that will care for any car or truck in the Lake Okechobee region. With latest type high pressure grease guns you can rest assured that your car or truck will receive a thorough greasing when placed on our rack.

We plan to handle the complete line of the Seaboard Oil company products and once you use them you will become a steady customer. In opening this station in Pahokee we have one thought in mind—that of rendering an efficient service which naturally assures us success. The next time you desire instant and efficient service on your car pay us a visit.

WE OFFER YOU A NEW SERVICE —DRIVE IN TODAY!

# Caterpillar Tractors Sold In Glades Area By Clewiston Motor Company

## THREE FEATURES POINTED OUT BY GLADES DEALER

### Says Caterpillar Is Built for Long Life In Rough Going

Caterpillar tractors are sold in the Lake region by the Clewiston Motor company of Clewiston and the management of the concern in commenting upon the outstanding qualities of the tractor stressed the heat control which is adjustable to permit the burning of low price fuels; full pressure lubrication under all conditions; large bearing crankshaft.

Of the many outstanding features of the Caterpillar Twenty-Two, the fuel manifold is the one that is chiefly responsible for this tractor's efficient handling of low price fuels. This manifold is designed with a "super-heater" and the carburetor is set close to the "super-heater" so that the fuel is broken up by the heat of the exhaust immediately after it leaves the carburetor. Therefore, the fuel has no time to become liquid en route to the cylinders and it enters in a hot mixture.

Efficient fuel conditioning is accomplished by means of a heat-exchange valve in the manifold which can be easily removed or replaced from low-heat to high-heat position. When in the high-heat position, the heat from all four cylinders is passed by the intake manifold, thus super-heating the manifold for the efficient burning of the low priced Tractor Fuels. When in the low-heat position the heat-exchange valve allows the exhaust from the two center cylinders to pass by the intake manifold, giving only a moderate amount of heat for operating on the better grades of low volatility fuels.

The heat exchange valve is cast from non-corrosive heat-treated material. The exhaust manifold and heat exchange valve are held in place by brass nuts which can easily be removed as they do not corrode or rust.

### Full Pressure Lubrication

Not only must an engine be constructed of good materials, well designed and well assembled, but those wearing parts of an engine which carry the load must be assured of positive lubrication. With the thirty years of experience in building heavy duty engines, the "Caterpillar" engineers have found the full pressure lubrication system to crankshaft bearings is the only system that will give long life under the continuous heavy loads that are imposed upon track-type tractors.

The oil pump assembly used on "Caterpillar" Tractors includes two separate, positive acting, gear type pumps. The top pump takes up surplus oil from the front of the engine and returns it to the main oil pump of particular advantage when the front of the tractor is pointed down hill. The second and bottom gear pump takes the oil out of the sump and pumps it to the bearings. No matter whether the engine is pointed up hill or

down hill, the pump is so located that it can always get a generous supply of oil.

Oil from the pressure oil pump is pumped under approximately 30 pounds pressure to the center crankshaft bearing, from which point it is distributed through the drilled crankshaft to all three main crankshaft bearings.

### Large Bearing Crankshaft

"Caterpillar" has learned through many years that proper materials, generous size and careful fitting of the crankshaft is the foundation for the long life of "Caterpillar" engines. In the "Caterpillar" Twenty-Two, for example, the crankshaft weighs 35 pounds, has a diameter of 2 3/8" and is carried in 5 1/2" sq. in. of main bearing surface, made up of three main bearings.

The bearings are bronze-backed and babbit-lined and fit into heavy girding of accurate alignment. Laminated, babbit-faced shims permit the use of 2 3/8" Pressure-lubrication is provided to assure ample lubrication of the bearings. The crankshaft is a heavy, heat-treated, drop forging with the flywheel held by cap screws to a flange forged integral with the shaft. The crankshaft is drilled to make a passage for oil from the main bearings to the connecting rod bearings.

The Clewiston Motor company invites your inspection of the Caterpillar before buying a tractor.

## Who was Who?

By LOUISE M. COMSTOCK

### CASABIANCA

TWO generations of school boys have dreamed and paraded Mrs. Heman's penne commencing "The boys" row on the burning deck," few of them perhaps realize that the small hero therein described really lived, and died as the poem tells.

During Napoleon's expedition into Egypt, England sent her famous admiral, Lord Nelson, against the French fleet, and all but four of the French vessels were sunk or captured. The French admiral had fallen, and the flagship, wrapped in flames and sinking, was deserted by all of her crew who could squeeze into the lifeboats or swim. Only the captain, Louis Casabianca, already badly wounded but following the unshaken tradition of sea captains, refused to leave his post, determined to go down with his ship. Suddenly three on the attacking British vessels saw that the gallant captain was not alone. His two-year-old son, who had hid in a cool of ropes until the decks were cleared, now rushed up to his father, threw a supporting arm about him and stood ready to share his fate. Commands and entreaties failed to move the boy, and fighting was suspended and the British cheered and wept as the flaming ship bearing the two heroes sank into the water.

(© 1932 Western Newspaper Union)

A tip to these boys going away to college: It will never equip you to live without work.

## BELLE GLADE THEATRE OFFERS FIRST FULL COLOR FEATURE FILM, "BECKY SHARP," SUN. AND MON.

Thackeray Heroine, Who Led Six Men a Merry Love Chase and Invaded the Ranks of the British Elite, Dominates a Great Drama

Insurmountable what many believe is to be a new era in screen entertainment, Pioneer Pictures' first full color feature, "Becky Sharp," is now ready for its premieres before the audience of a world which has been keyed to a high pitch of anticipation regarding this production. It will be shown at the Everglades Theatre in Belle Glade on Sunday and Monday.

Based upon William Makepeace Thackeray's famous fiction classic, "Vanity Fair," and the Langlois Mitchell stage play "Becky Sharp," it stars Miriam Hopkins. Produced entirely in the new three-component Technicolor, it promises a revelation in beauty, fidelity, and clarity. It is the first full length motion picture, as yet, in this process and may, as many predict, revolutionize the entire future course of the film industry because of perfect perfection is now available.

Above and beyond this technical triumph, "Becky Sharp" offers an absorbing, perfectly executed drama, rich in striking characterization and colorful entertainment value, one which, even without color, claims a place among the year's achievements.

Coming as a Rouben Mamoulian production, "Becky Sharp" offers the finest of Miss Hopkins' artistry. As fiction's immortal coquette, the blonde and lovely Miss Hopkins has a role demanding both sparkling humor and tense emotion. She is brilliantly supported by Frances Dee, Sir Cedric Hardwicke, Billie Burke, Alison Skipworth, Nigel Bruce, Alan Murray, G. P. Huntley, Jr., Colin Tapley, William Faversham, and other notable players.

## Two New Colors For the 1936 Ford

New Ford V-8 body types for 1936 are available in five rich body colors, of lasting beauty, according to B. Elliott, Pahokee Ford dealer. Two of the colors, Washington blue and gray Vinyard green, are new. The other three colors are Cordona tan, gunmetal and black. The Ford haked exterior of finish is used on the exterior of all bodies and fenders.

The de luxe body types may be had in any of the five colors, with fenders of the same color, harmonizing wheels and attractive striping. Body types available without de luxe appointments if desired are offered in two of these colors. The Tudor and Fordor sedans and the five-window coupe come in black or gun metal. Fenders in all cases are of the same color as the body. On cars without de luxe appointments wheels are black. Headlamps are finished in body color with rims of rustless steel.

## Lake Harbor

### LADIES' AID MEETS

The Ladies' Aid, which was organized last week, met on Thursday afternoon with Miss B. Scogin, president, presiding. A suggestion was made to have a Halloween supper for the community and Miss Scogin appointed a committee to canvass the community to find out if such a project would meet with general approval. There will be a called meeting of the Aid on Tuesday afternoon to perfect plans. Members attending were Miss B. Scogin, Mrs. Ira Crouch, Mrs. Bob Crouch, Mrs. George Royal, Mrs. J. Henderson, Mrs. J. M. Hemphill, Mrs. D. R. Layfield, Mrs. J. S. Scogin, Mrs. Wells, Mrs. Gertrude Morris and Mrs. K. B. Eldon.

P. L. Franz was a recent business caller here.

J. E. Riss and I. R. Shenley transacted business in West Palm Beach on Friday, and attended Pahokee-Lake Worth football game on Wednesday.

J. L. Wood and Mr. Van Hoose made a business trip to West Palm Beach on Friday.

Woodrow Hawk has returned to Lake Harbor after spending a year at his old home in Tula, Miss.

Dolls Joe Nevills, Ralph Stallion and I. R. Shenley made a business trip to Canal Point on Wednesday.

Miss B. Scogin entertained at a birthday supper in honor of Mrs. Layfield on Wednesday evening. Those attending were: Mr. and Mrs. D. R. Layfield and three children, Mr. and Mrs. J. B. Grant and family, Mr. and Mrs. J. S. Scogin.

A V-8 Ford 1 1/2 ton truck belonging to Arthur Wells of Bean City and driven by a colored man while engaged in hauling lumber from the same city to Bean City picked up three colored school children at Schriber, Florida, and took them to school. On the way above Bean City a wheel came off

hurling the truck and occupants into an 8-foot canal. The driver and children fortunately escaped unhurt and one small boy reported that he got out with both his lunch and his books.

Everglades News wants ads will pay.

## More Bearings of Anti-Friction Type

Anti-friction bearings in the Ford V-8 for 1936 have been increased in number from 25 to 27, according to B. Elliott, Pahokee Ford dealer. These modern bearings guard the vital moving parts of the new car and prevent power loss by excess friction.

Several types are used. Some are ball bearings, others are tapered or straight rollers. Each is chosen of the type best suited to meet conditions at the point of friction. The two added in the new Ford V-8 are straight roller bearings—of the type sometimes called "needle" bearings—on the steering gear sector shaft.

The many new automobiles described in this section come to you in several beautiful colors. Sunday we offer you movieland's newest creation

## Instruments of New Design in Ford V-8

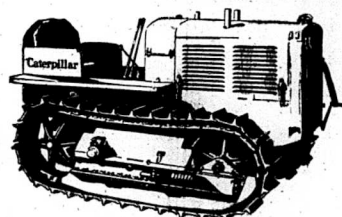

Instruments of the Ford V-8 cars for 1936, on display at the showrooms of B. Elliott, Pahokee Ford dealer, are of new design to conform with the modern effect of

the instrument panel, which has a center decorative scheme of chromium strips in de luxe types.

All Ford V-8 cars for 1936 including those without de luxe appointments are equipped with a water temperature indicator and an electric fuel gauge, in addition to an ammeter and a 100-mile-an-hour speedometer with trip mileage indicator. De luxe cars also

have an electric oil gauge. In all cars the instrument panel is finished in gray metallic plywood.

The latest total put out by the Treasury Department, gives the cost of the World War to the United States to date to be forty-two billion dollars.

## Dodge's Creations Offered By Pioneer Motor Sales

NEW DODGE WELL  
RECEIVED BY ALL  
DEALER STATES

New Models on Display  
At Belle Glade  
Showrooms

New 1936 model Dodge cars are on display in Belle Glade at the Pioneer Motor Sales company. Lawrence E. Will is proprietor of the Pioneer concern and R. L. Murray is sales manager.

Mr. Will and Mr. Murray in commenting on the new 1936 line stated that the cars are the most beautiful ones ever manufactured by Dodge and that much interest in them has been displayed since they were put on display last Saturday.

Mr. Will says: "You're invited to come in and see the big, new money-saving Dodge, the beauty winner of 1936. Once you get behind the wheel of this beautiful creation it will be hard for you to decide to buy any other car. We have the new models on display and will gladly demonstrate them to interested parties."

Famous for its safety—famous for its ruggedness and dependability—famous as the car that has smashed all records for economy—the 1936 Dodge tops it all with style and beauty so stunning that this new car has been hailed by noted auto editors and famous fashionists as the smartest looking car in all Dodge history.

With long, low, sweeping "Air-Style" lines—interiors that are more spacious, more luxurious than ever, the 1936 Dodge gives you—in addition to beauty—the protection of genuine hydraulic brakes, safety-steel body pioneered by Dodge, Balanced Driving Control... the famous Dodge "Air-Ride Ride",... and, above all, the amazing economy of the big, powerful Dodge engine—the engine which owners are already reporting gives them 18 to 24 miles per gallon of gas with savings up to 30% on oil.

See this brilliant new car today at our headquarters. Drive it. Compare it point for point with any car priced under \$3500 of Dodge, and you'll be amazed at how much extra value this "Beauty Winner" of 1936 gives you for just a few dollars more than the lowest priced cars!

Joe Satterthwaite: Even more essential than laws prohibiting the sale of intoxicants is a vital public sentiment that demands and helps in the enforcement of such laws.

The Continental Can company reports 1934 as the best year in its history.

Rubbing the hands with dry salt will remove all odor left from peeling and slicing onions.

### Who was Who?

By LOUISE M. COMSTOCK

BECKY THATCHER

WHEN that "red-headed child of the Black Avengers of the Spanish Main," more commonly known to readers of Mark Twain as Tom Sawyer, indulged in moments of upstate-like tenderness, little Becky Thatcher, Tom's sweetest, was the cause. Thus the great American humorist immortalized a love of his own youth when little Sam Clemens courted Laura Harkness in Hannibal, Mo.

Out of their own school days came much of the similar material in "Tom Sawyer." The schoolmaster was a Mr. Cross, for whom Sam composed an elegant couplet:

"Cross by name, and cross by nature,  
Cross jumped over an Irish potato."

Sam Clemens left Hannibal at the age of eighteen, and Laura married and became Mrs. Fowler, went to live at Palmyra, Mo., and enjoyed at least one adventure that never got into a book. During the Civil war her husband, an outspoken Secessionist, was forced into hiding from Union troops commissioned to capture and silence him. With a woman's intuition for the right thing to do, Laura during her husband's absence flattered the Union commander, Gen. John McNeil, to dinner and filled him full of southern coquetry and flattery. Some time later, when her husband had been captured and condemned to death, she made a personal plea for his life, which was granted by her former guest.

### SOUTH BAY LADIES' AID

The Ladies' Aid of the Community Church will hold a silver tea at the auditorium of the church on Wednesday afternoon at 4 p. m. An entertainment will be provided and light refreshments served. All ladies of the community are cordially invited to attend. Newcomers or strangers are especially welcome.

Next Sunday will be "Family Day" at the Community Church and all members and friends are cordially invited to come and bring the entire family. Sunday school at 10 a. m., and morning worship at 11 a. m.

Coffee used in place of water in making gingerbread or chocolate cake gives it a different flavor.

Cut flowers last longer in pure water than they do, when aspirin or salt is added.

If a woman pays the price of her sin in remorse and suffering, has she won the right to love and happiness again?

An agless conflict between stern rockbound morality and the spirit of liberality and forgiveness, becomes a living issue again in the dramatic conflict of "Way Down East," which comes to the Prince Theatre in Pahokee on Sunday and Monday.

Adapted from the play which through years has grown to the position of America's greatest melodrama, the picture stars Rochelle Hudson and Henry Fonda, with Slim Summerville, Edward Trevor, Margaret Hamilton and Edward Devine in the chief supporting roles.

The story revolves about the character played by Miss Hudson. Appearing from nowhere, she appears for work on Russell Simpson's farm, soon wins the love of his son, played by Henry Fonda, but for some mysterious reason fails to reciprocate his affection.

The reason becomes apparent with time, however, as malicious gossip brings tales of the girl's dubious past to the square's ears. The drama rises to its thrilling close as Simpson reveals the story of the girl's shame, then relents in his judgment before his son's fiery wife's pleas for mercy.

In one of the most thrilling climaxes ever filmed, Miss Hudson is rescued from an ice jam onto which she had ventured in her agony, and the man who had wronged her pays his debt with his life in a moment of remorse and gallantry.

Henry King directed "Way Down East" from a screen play by Howard Estabrook and William Hurtall. This Fox picture was produced by Winfield Sheehan.

### Motor Car Circles Full of Optimism

Continued from Page 1  
Imminence of the 1936 models, retail sales in September were close to 170,000 cars and trucks. In past years the swing over to new types has found dealers in many cases stocked with vehicles they could not move rapidly enough to deliver.

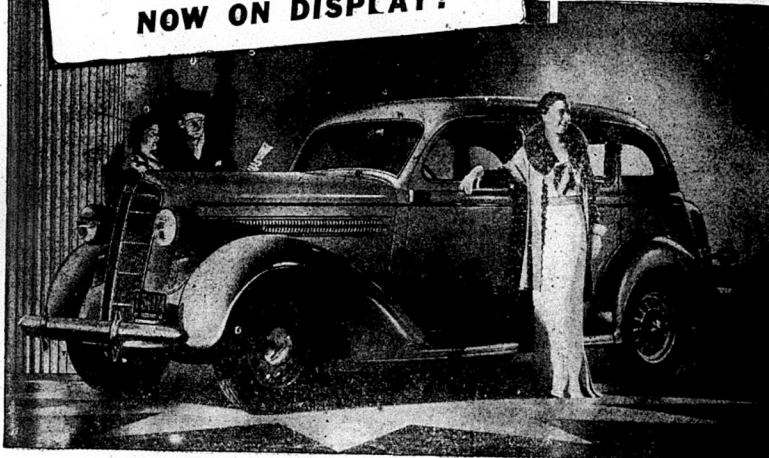

This year the factory shut-downs have been of short duration and the dealer clean ups have been more rapid than in several years past.

Stir together through flour sifted one-half cup flour, one-half cup white sugar and one-half teaspoon of powdered alum, put pint of water and 15 drops of oil of cloves in the mixer, beat in the flour mixture and cook until clear and you have a fine library paste.

Don't forget to scatter fresh lime about the old garbage pail.

Laxative combination folks know is trustworthy.

The confidence thousands of people have in good, old reliable, powdered Theodor's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when their mothers tell them to take it.

I have used Theodor's Black-Draught (powder) about thirty years, making it the only laxative I have used. I have always pleased with the results. I cannot say enough praise for it as a laxative.

I have found Syrup of Black-Draught to be just what I need.
